

ML2021Spring HW12 Report

NTNU ME 吳政彥

40673034H

Public Score	Private Score
280	280

The methods I used to pass the strong baselines include:

1. Using DDQN model
2. Update the network per 4 episode
3. Totally update the agent for 2000 times
4. Increasing the score threshold to 250
5. Using these hyperparameters
